

Relay 5000

Fast, reliable, and
flexible technology
for your mail.

Relay 5000

The Relay® 5000 inserting system is designed on a fast, reliable folding and inserting platform that helps ensure that the right contents get into the right envelope.

Improve productivity without risking precision.

Mail continues to be critical to the success of your company, from sending monthly bills to existing customers to building your business via direct mail. Achieving accuracy, security and speed isn't merely important. It's necessary. Until now, it's been difficult to identify an ideal solution that can keep your mailing process precise and accurate.

Keep your mail moving with outstanding flexibility and efficiency.

The Relay 5000 inserter enables fast, consistent production of both simple and complex jobs. The proven reliable chassis uses the same straight paper path design found on our top of the line inserters. The Relay 5000 also gives you the flexibility to handle folded or unfolded sheets, without any manual changeover. That saves you time and effort.

The Relay 5000 does the work... so you don't have to.

Set and start your mail runs in seconds with the intuitive user interface. With the ability to program your jobs with real names — not just numbers — you can switch settings such as form letters to single page letters to variable page bills with a simple press of a button. The simple-to-follow onscreen user guides walk you through the loading of paper, inserts, and envelopes. With guesswork eliminated, the Relay 5000 is easy enough to use for even infrequent operators.

- Finish up to 4,000 envelopes per hour.
- Process monthly volumes up to 62,500 finished envelopes
- Multiple output options to suit your workflow.
- Optional ergonomic height-adjustable table.

Reliable and flexible design keeps your documents and envelopes moving quickly.
